

**Sweet Frost** is a granular, free-flowing, sugar-based dusting powder which will not dissolve in conditions of high humidity, when frozen and thawed, or during chilled or wrapped storage.

Apply instead of caster sugar to dust doughnuts, sponges, Swiss rolls, apple tarts, Christmas pies, etc.

**Sweet Frost** is economical in use as very little is required to give an effective, long lasting covering.

---

**NOTES**

---

- **Sweet Frost** is not suitable for making icings or coatings.
- **Sweet Frost** should be applied once the finished product has been cooled to ambient temperature - approximately 20°C (68°F).

If a finer particle size is required, use **Sweet Snow**.
